## Coming Soon.

**Smart 9-Button Scene  
Controller**

**Smart Curtain Control Module**

**Smart Double Power Point,  
With Single USB Charger**

**Smart RGBW LED Strip Light Kit**

**Smart RGBW Downlight**

**Smart RGBW Bulb**

# KASTA MAKES SMART EASY

Connecting your clients to a smarter lifestyle is quick and easy with KASTA technology.

Unlike many complex smart home automation systems, KASTA uses reliable, self-networking, Bluetooth mesh technology to connect home lighting and appliances. The system connects devices wirelessly, so there is no requirement for an internet or Wi-Fi connection. KASTA need only be connected to power, just like a traditional switch.

Our user-friendly app will let you configure and control your client's smart home in just a few quick taps.

## FAST INSTALLATION. SIMPLE CONFIGURATION.

### CONVENTIONAL WIRING

Traditional 2-way switching where wiring is required for each switch

— Active  
— Neutral  
— Switched Active

### KASTA

Use a KASTA dimmer or switch to wirelessly connect to KASTA remote switches for easy multi-way switching and dimming
