

# Smart Thermostat

**KASTA-TS01B-WH**

Smart Thermostat with Fan and Valve Control via a Capacitive Touchscreen

Detect difference between room and set temperature and controls fan and motorised valve in fan coils accordingly. It can be manually operated or controlled via the free KASTA APP.

## Applications

Residential dwellings, Apartments, Accommodation

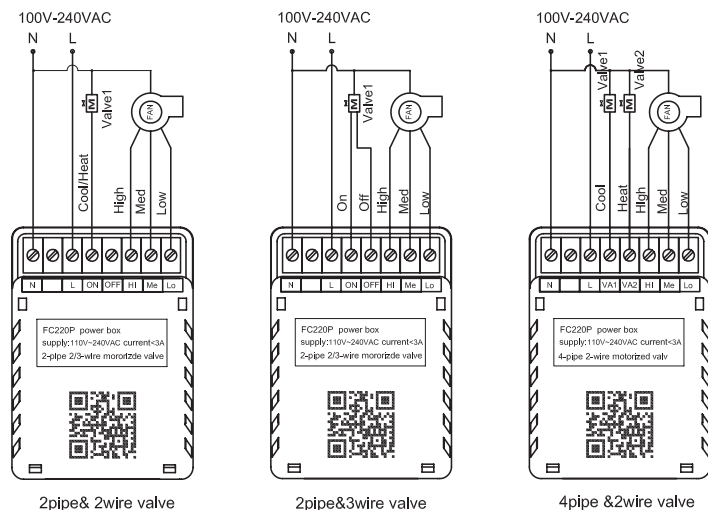

## FEATURES

- High strength tempered glass lens
- Adjustable Two wire and Three wire motorised valve
- Temperature Offset
- Adjustable minimum and maximum setting temperature point
- Lock/Unlock Keypad Function
- Adjust fan coil system / Water floor heating / Fan coil + water floor heating
- Robust Bluetooth Mesh
- Low temperature protection
- Memory function during power loss
- Selectable fan stage/valve control

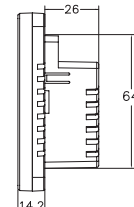

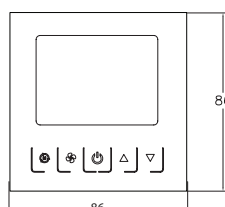

## ELECTRICAL

Power Supply	100-240V a.c. 50/60Hz
Load Current	5A
Temperature Controlled Accuracy	+/-1°C
Temperature Display Accuracy	+/-0.3°C
Operating Ambient Temperature	0°C to 50°C
Housing Material	Tempered Glass / Polycarbonate (PC)
Installation	Recessed Mount
