Setting up the KASTA Cloud Connect Gateway

With the KASTA Gateway installed and using just the internet and the KASTA app on your smartphone, you can control your KASTA devices from anywhere in the world.

Voice control can be used if you subscribe to Google Home or Amazon Alexa.
Learn more at **kasta.com.au/voice**

BEFORE YOU START

- You will need a smartphone or smart device that uses either Android or Apple iOS.
- Your smartphone or smart device needs to be connected to your Wi-Fi network with access to the internet.
- You will need to know the Wi-Fi name (SSID) and Wi-Fi password for your network.
Unsure of your Wi-Fi name or password?

- Check if the base of your Wi-Fi modem/router has a sticker with your Wi-Fi details. This should be supplied by your ISP (internet service provider).
- Check if your ISP has supplied you with a fridge magnet with your Wi-Fi details.
- If you are unable to find your Wi-Fi network name or password, please contact your ISP for assistance before getting started.

1. Once signed in to your KASTA account, go to the DEVICE page.

DEVICE

2. Select the **+** symbol on the top left of the screen.

DEVICE

LIGHTS   OTHERS
3. Select **GATEWAY** then follow the instructions within the KASTA app.
