

Aged Care Solutions

Living **Enhanced** 

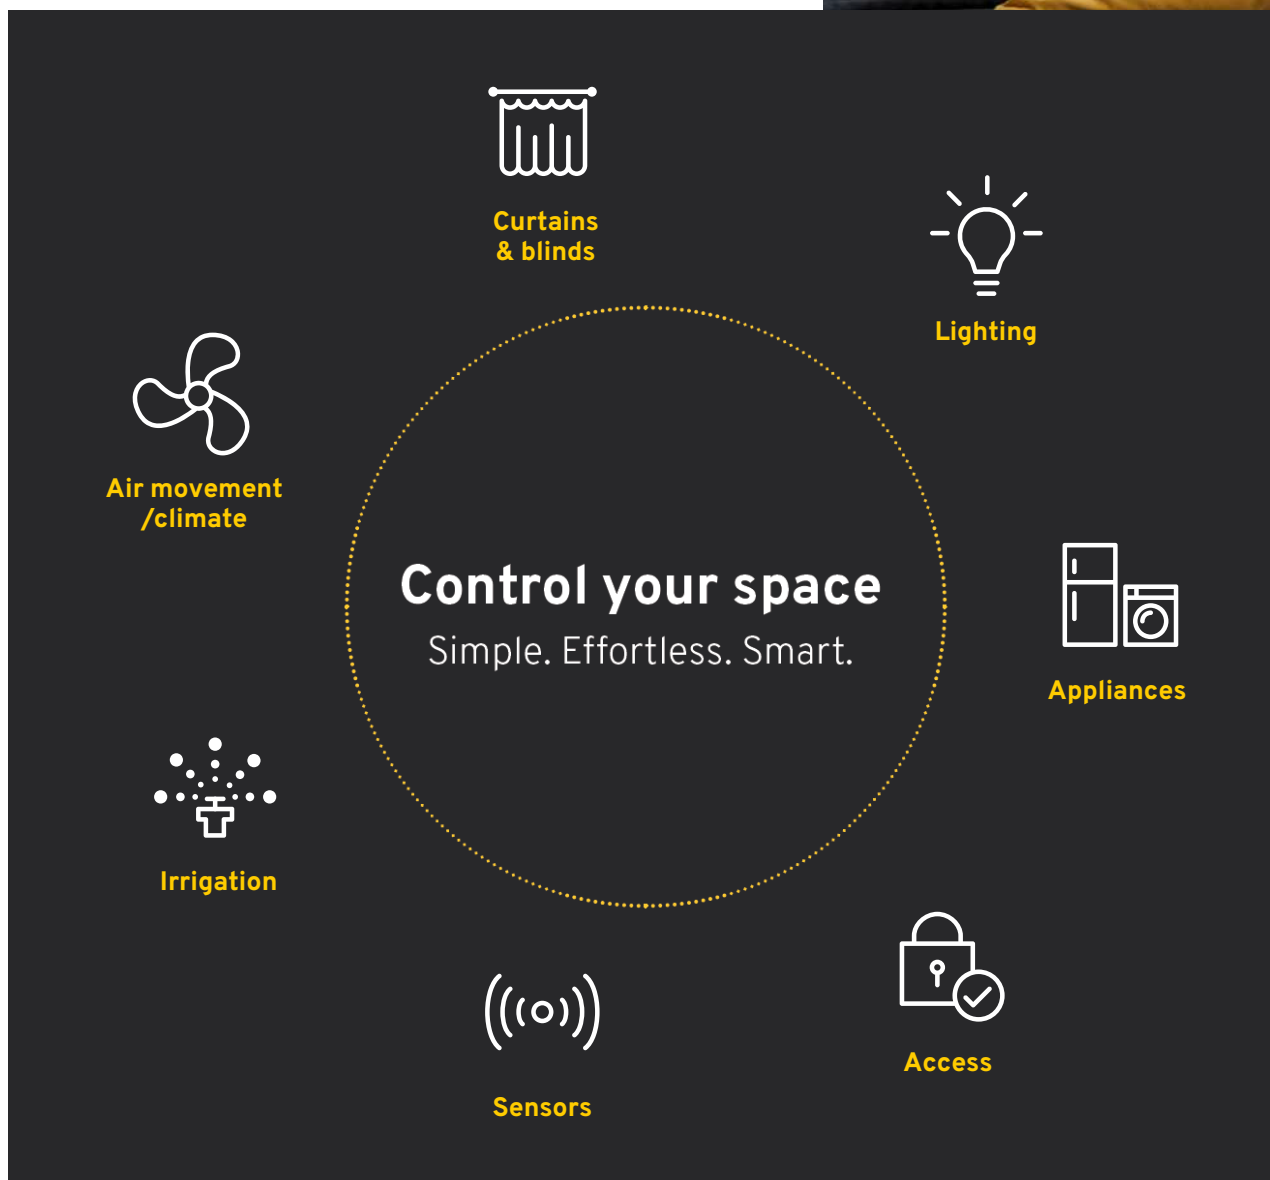

Living Enhanced

KASTA's mission is to enhance lifestyles.

Australia's ageing population has seen an increase in demand for smart control technologies in residential environments, to assist the elderly to continue living in their own homes for longer.

KASTA offers a range of useful home control solutions with multiple control methods including smart switches, app control and voice control for ultimate **accessibility, independence, safety, security, health and wellbeing**.

Use RGB-TW lighting to simulate daytime to maintain circadian rhythm sleeping patterns
(Useful when there is a lack of natural light and mobility issues)

Use remote switches to easily control powerpoints that are normally hard to reach
(Add a wall switch button that can control a powerpoint)

Allow simple access for visitors with garage door and gate control
(Operate from the app, a wall switch or even via voice command)

Add personalised pictogram button caps or switch plate label engraving for easy control identification
(Use custom labelling for different devices, groups, rooms or scenes)

Create a Master Off switch for convenient ON/OFF control of your whole home
(Leave the home with confidence all of lighting is turned off)

Set-up custom schedules for reminders to take medication through visual lighting alerts
(Each morning at 9am living room lighting could turn to blue)

Voice control

Offer a fully voice activated space and help residents to live independently for much longer.

By using simple voice commands, users can control lighting, window furnishings, fans, air conditioning, appliances, doors and gates, TVs, sound systems, irrigation and more.

Compatible with various
smart speakers:

AMAZON ALEXA

GOOGLE ASSISTANT

“Hey Google, turn on fan.”

“The convenience KASTA has added to my mother’s home has meant she can live comfortably and independently for many more years to come.”

Daughter of Deborah - Retirement Living Project, QLD

Energy savings

With intuitive control of lighting, appliances, curtains, blinds, fans and air conditioning, you will save on energy costs by monitoring and scheduling power.

Remote access

Enable control of the home remotely by residents or their loved ones with ease, from anywhere in the world. Check in on your eco-system and offer convenient remote assistance.

Button indicators

KASTA switches use LED indicator rings around all buttons for easy location at night and device status indication. Multiple Hesperus Series interfaces also offer tri-colour indication to accommodate those with protanopia, deuteranopia or tritanopia.

To suit every interior

A range of switch and powerpoints to choose from with interchangeable covers, so that your electrical accessories will always stay perfectly in tune with your décor.

“As our population continuous to age, we need new technologies and platforms in the home environment to support how older Australian’s live and stay healthy.”

Publication: Smarter, Safer Homes - Australia’s Ageing Population - CSIRO

Simplifying installation

KASTA uses existing standard wiring and no proprietary cabling like other systems on the market, enabling efficient and cost-effective installation and set-up. The KASTA eco-system operates on a secure and reliable Bluetooth mesh network system that does not require Wi-Fi.

No specialist required

Due to the way the KASTA system works, ongoing maintenance is heavily sped up by allowing any on-site electrician to perform re-programming tasks efficiently and without the need for specialist integrators.

Safety assurance

Smart powerpoints allowing individual outlet locking for sockets that are not in use. KASTA systems also uses secure network encryption for safety and privacy assurance.

Accident prevention

Use RGB-TW strip lighting to light up pathways, obstacles and kitchen splash backs to prevent falls and other accidents.

Simple, smart control solutions that allow all generations to take advantage of today's amazing advances in technology for an enhanced lifestyle.

Illuminate with colour

Bring entertaining to the next level and make family celebrations extra special. Demonstrate just how clever your KASTA system can be, by automatically changing interior lighting to match any screensavers that are playing on smart assistant device screens.

EDGY™ Series

Edgy™ Switch

Push button switches for simple smart control offering pictogram button caps for easy identification and a range of data mechanisms.
